

Full Stack Software Developer. Security Check (SC) cleared. Adaptable to most technologies including Azure resources, React and C#. Passionate about my work and currently on some refresher courses to help expand on my skills.

RECENT ACHIEVEMENTS

- Recently completed several online Pluralsight courses including React, Typescript and Bash.
- Successfully worked on a secure Azure/React project and seen this through to going live.
- Developed B2C custom policies for one of the largest trade unions in the UK.
- Microsoft Certified x 2: Azure Fundamentals & Azure Developing Solutions.

EXPERIENCE

Apr 2022 – Dec 2023	Software Developer – Contractor <ul style="list-style-type: none">• Worked on government software that primarily involved a React UI with a Microsoft .Net Core API back end.• A large part of the contract had involved working on Microsoft Azure Resources. (Functions, Event Hub, HDInsight, etc) to ensure a high volume of telemetry is delivered to the project which other teams could also benefit from.• Used Terraform, SQL Fluent Migrator, Typescript, C#, Bash, Git Hub, etc.
Aug 2021 – 24 Dec 2021	Microsoft Identity Developer – Contractor <ul style="list-style-type: none">• Programmed configurable login with Microsoft B2C custom policies.• Blazor application development to manage users/roles.• Used Azure portal, B2C, C#, MVC, Application Insights, Git Hub, DevOps.
Mar 2021 – Aug 2021	Microsoft Professional Qualification Study Break <p>Studied and passed the following 2 exams; Microsoft Azure Fundamentals (az-900), Developing Solutions for Microsoft Azure (az-204).</p>
Feb 2021 – Mar 2021	Full Stack Developer at London Borough of Hackney Council <ul style="list-style-type: none">• Due to staff absence, I worked on 2 C# .net API's with PostgreSQL database.• Mainly fixed a long list of bugs on 2 frontend React applications.• Used AWS, Git, ClickUp, Kanban board, Slack & Google Meet.
Aug 2020 – Jan 2021	Back End Developer at a Healthcare Start-up <ul style="list-style-type: none">• Worked with a range of technologies to help with an initial start-up company.• Main Technologies: Web API's, .Net Core, C#, Azure Cosmos, SQL Server, React & Git Repository.
Nov 2019 – Aug 2020	Software Developer & Training <ul style="list-style-type: none">• Legacy software enhancement for an old client using Windows Forms.• Microsoft on-line training with Pluralsight, including MVC 5, JavaScript, Bootstrap, Angular, React (e.g. app, app2), XAML, .Net Core & Razor Pages.
Jan 2019 – Oct 2019	Senior Developer at a Digital Software House <ul style="list-style-type: none">• Successful search platform upgrade from Endeca to Solr for British Telecom.• Main Technologies: C#, VB, SQL Server, Dynamic Json, MVC, Solr & Unit Tests.• Built a bespoke search platform translation between web requests and Solr that used a single indexed table. This included a switch from old to new.
Jul 2018 - Oct 2018	Software Developer at a main Publisher Distribution Company <ul style="list-style-type: none">• Gardlink upgrade for an old client (Integrated bookshop management system)• Main Technologies: C#, WinForms, SQL Server.
Nov 2017 – Jun 2018	Software Developer at a Finance & Technology Company <ul style="list-style-type: none">• Helped Develop a Supermarket Self-Checkout System.• Main Technologies: C#, ASP.Net Core with MVC, SQL Lite, WPF, Unit Tests.
Jul 2017 - Oct 2017	Short sabbatical & Training <ul style="list-style-type: none">• Training in WPF, MVVM, ASP.Net, MVC, Entity Framework.
Sept 2007 – June 2017	IT Contractor at a Publisher Distribution Company <ul style="list-style-type: none">• Successfully developed SIMS (Inventory Management for Multiple Online Sellers on many platforms that included eBay and Amazon). This also included an intelligent price tracking system to help maximise profits.• Created Gardlink (Bookshop Management System including a till system)• Main Technologies: C#, SQL Server, WCF Client, Web API, Dynamic JSON.

EDUCATION

University of Brighton
University of Westminster
Professional

BSc Hons Software Engineering
BTEC Computing: Computer Programming & Networks
Microsoft Azure: Fundamentals, Developer

ADDITIONAL INFORMATION

British. Member of SAMA Karate & keen runner.
